

eVent alpineST

With more than two decades of experience developing high-performance waterproof technology, eVent fabrics has introduced a sustainable alternative to ePTFE.

alpineST builds on eVent's rich heritage with a PFAS-free membrane technology that's designed to stand up to the most extreme conditions and provide exceptional durability.

Created with a polyolefin-based membrane and paired with recycled face fabrics, **alpineST** combines the performance users have come to expect from eVent with the planet-friendly innovation they demand.

Features:

- Sustainable alternative to ePTFE. Fluorine-free.
- 100% waterproof & windproof
- Maintains high water column after wash
- Exceptional MVTR for active users

Laminate Specs:

WP (ISO 811)	>25m water column
MVTR	>15,000 g/m ² /24 hrs (JIS L 1099 B2)
Laminate weight range	125-270g/m ²

DIRECT DIFFUSION MEMBRANE
Sustainable waterproof membrane that provides high levels of all-weather protection

eVent fabrics is committed to achieving sustainability and circularity in every step of our manufacturing process. From the materials we source to the practices in our production, eVent believes in eco-friendly textiles for a better planet.
